environmental design solutions

Trainee
February 2014 - 2014 (less than a year)
Mumbai

This training was meant for practicing Architects, students, Engineers which was emphasized on "Passive Solar Design, Daylight & Simulations For Green Buildings".

Software designed by EDS has helped architects, engineers, building owners, and operators in designing and operating more sustainable buildings. EDS has designed analytical tools which are used extensively by reputed institutions worldwide for policy analysis, building thermal comfort and energy end use analysis. They have also designed interactive software to inform occupants about the impact of their behavior and lifestyle choices on the sustainability of their workplaces and homes which was a part of this training.

This program was conducted by the EDS Pvt. Ltd. (Environmental Design Solutions) and was supported by the Ministry of New and Renewable Energy, Government Of India and IIHS (Indian Institute For Human Settlements).
